USAID MUSTAFA

FRONTEND DEVELOPER

Delhi / Bhopal | +91 **8103641119** | m.41usaid@gmail.com

I have worked as a front-end developer, developing easier and attractive web interfaces. I like solving problems, being creative and learning about innovative technology to improve my work. My purpose is to make the whole UX smooth and not only the graphic part but also the positive outcome for companies.

AREA OF EXPERTISE

HTML, CSS, JS, TS	Tailwind, Bootstrap	Github , Bitbucket
React Js, Next JS	material UI, shadcn UI	MS SQL, MongoDB
React Native with Expo	Python, FastAPI	RestAPI, GraphQL

PROFESSIONAL EXPERIENCE

Infomover Technologies   **Feb 2024 - Present**

- Developed a time monitoring application that tracks user time using Next.js and UI component libraries, with a Java backend.
- Created a mobile app using React Native for the time monitoring application, providing easy access to software information on mobile devices.
- Designed a marketing website using Next.js to showcase a software product, highlighting its key features and benefits.
- Focused on delivering intuitive and engaging user experiences across all projects, ensuring functionality meets user needs.

Personal Projects   **Oct 2024 - Present**

- Built a task management app similar to Jira and ClickUp using the MERN stack, allowing users to organize and manage tasks collaboratively.
- Developed a job posting software application with multiple homepages and advanced cart functionalities, featuring animations, using Bootstrap and Redux.
- Created a dedicated cart project utilizing Next.js and Redux Toolkit for seamless user interactions.

EDUCATION
